ABOUT THE PROJECT

DIGITAL COMPETENCE FRAMEWORK FOR EDUCATORS

The Erasmus+ project "Digi4SME - Digital Competences of VET Trainers for SME" stems from the need to extend the digital competences of VET teachers and trainers by taking as a reference the Digital Competence Framework for Educators (DigCompEdu), a scientifically valid European reference framework for teachers, trainers and educators which describes what it means to be digitally competent.

The ultimate goal of the DigCompEdu framework is to provide a consistent model for teachers and trainers from EU Member States to assess their own level of "digital pedagogical competence" and to develop it further through contents and learning levels.

DIGITAL COMPETENCES OF VET TRAINERS FOR SME

The DigCompEdu is divided into six areas dedicated to different aspects of the professional activity of teachers and trainers:

- Area 1 - Professional engagement;
- Area 2 - Digital resources;
- Area 3 - Teaching and learning;
- Area 4 - Assessment;
- Area 5 - Empowering learners;
- Area 6 - Facilitating learners' digital competences.

Areas two to five represent the pedagogical core of the framework and describe the competences that teachers and professional trainers need in order to use effective, inclusive and innovative learning strategies through the use of digital tools. Areas one and six are dedicated to teacher/trainer and learner competences, respectively.

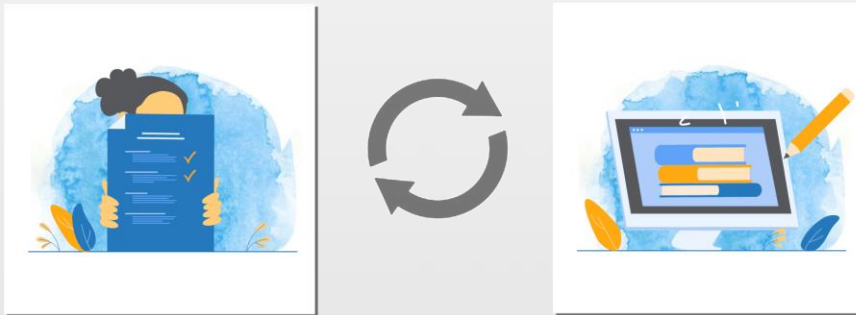

DIGI4SME

PLANNED RESULTS

The results that Digi4SME project intends to achieve aim at assessing the level of competences of teachers and professional trainers in the digital field through the **Training needs detector**, and generating a customised training path developed through the **Training e-course**.

The project plans to explore six of the twenty-two sub-areas of DigCompEdu identified on the basis of the expertise of the project partner organisations.

1. Professional engagement: **Professional collaboration**
2. Digital resources: **Creating and modifying digital resources**
3. Digital resources: **Managing, protecting and sharing digital resources**
4. Teaching and Learning: **Collaborative learning**
5. Teaching and Learning: **Self-regulated learning**
6. Assessment: Assessment strategies

The results will be available and accessible free of charge on the digi4sme.eu website for at least three years after the end of the project.

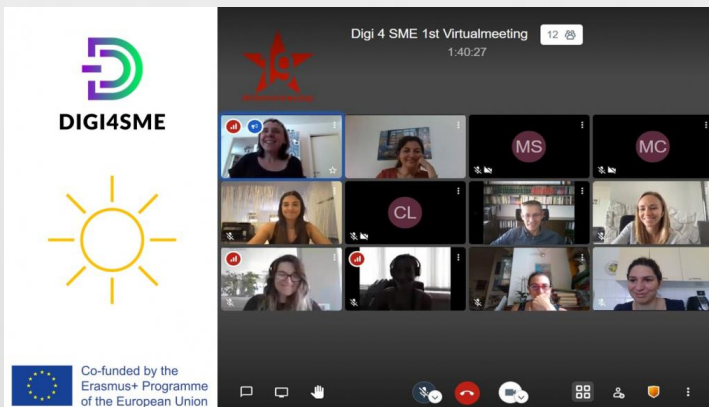

DIGI4SME

WHAT HAPPENED SO FAR?

29th of April 2021 – Kick-Off Meeting

8th of July 2021 - Summer Virtual Meeting

15th – 16th of October 2021 – Transnational Project Meeting in Valencia

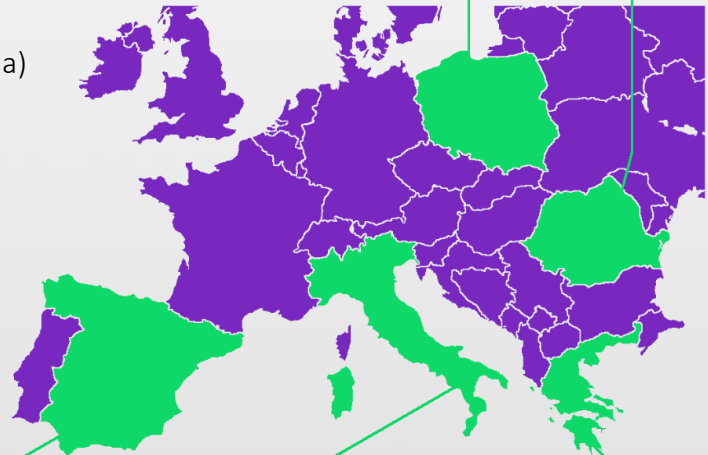

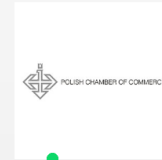

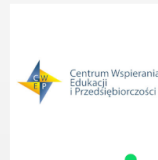

DIGI4SME

MEET THE PARTNERS

The coordinator of the project is Diciannove Società Cooperativa (Genoa, Italy), and partner organisations are:

- STOWARZYSZENIE CENTRUM WSPIERANIA EDUKACJI I PRZEDSIĘBIORCZOŚCI (Poland)
- LABC S.R.L. (Italy)
- KAINOTOMIA & SIA EE (Greece)
- SC Ludor Engineering SRL (Romania)
- INSTALOFI LEVANTE SL (Spain)
- KRAJOWA IZBA GOSPODARCZA (Poland).
